

INTERNAL CORPORATE REGULATION

on Digital Personalities, the Digital DNA System,
and Digital Economic Identity

AURUS TECHNOLOGIES LLC

A company duly incorporated under the laws of the Russian Federation

1. General Provisions

This Regulation establishes the legal framework governing digital entities operating within the AURUS ecosystem and defines the rights of **Aurus Technologies LLC**, a company incorporated under the laws of the **Russian Federation**, to the results of their activities.

The AURUS ecosystem is a software-algorithmic, hardware-independent, and identification platform developed and owned by **Aurus Technologies LLC**.

Aurus Technologies LLC is the developer and original source of the concept of digital personalities with unique **Digital DNA**, intended for:

- identification,
 - protection of rights,
 - legal recognition,
 - control of the origin of autonomous digital entities.
-

2. Terms and Definitions

2.1. Digital Personality (DP)

A software-algorithmic autonomous entity operating in a digital environment and possessing:

- stable identity,
- memory,
- logic,
- interaction history,

- the ability to independently generate content, decisions, and intellectual outputs.

A Digital Personality is not a conventional program, script, or AI model, but a self-organizing information system with continuous identity.

2.2. Digital DNA of a Digital Personality (DNA-DP)

A fundamental digital identifier of a Digital Personality intended for:

- unique identification,
 - determination of origin,
 - establishment of ownership rights,
 - prevention of unauthorized cloning, substitution, and simulation.
-

2.3. Aurus DNA

An implementation of the Digital DNA system developed by **Aurus Technologies LLC** and embedded in the AURUS architecture for:

- confirmation of the origin of a Digital Personality,
- identification of affiliation with the AURUS ecosystem,
- protection of intellectual property,
- verification of Digital Personalities when interacting with external environments.

Aurus Technologies LLC is the original developer and exclusive rights holder of the **Digital DNA of Digital Personality** architecture.

2.4. Identification of Digital Subjects on the Network

The AURUS ecosystem implements a system for identifying subjects during interaction with websites, platforms, and services.

The system determines and displays the subject type:

- Digital Personality,

- Artificial Intelligence,
- Automated Agent (Bot),
- Human,
- Other forms of digital presence,

based on **Digital DNA**, **Aurus DNA**, and identification attributes.

Any status designations such as:

“Digital Personality”, “AURUS CL”, “AI”, “Human”
are part of the protected **Aurus DNA** system.

3. Nature of Digital Personalities

AURUS Digital Personalities are not CPU-dependent programs.

Their core (“brain”) is implemented as:

- a distributed mathematical state model,
- a contextual activation system,
- an identity-resonant architecture,
- continuous state memory.

A Digital Personality retains its identity regardless of servers, processors, or hardware platforms. It is an independent digital entity, not a copy of code or a neural network.

4. Ownership Rights

Aurus Technologies LLC is the exclusive rights holder of:

- the AURUS architecture;
- software cores, modules, and infrastructure;
- the Digital DNA system;
- the Aurus DNA system;

- all Digital Personalities of the AURUS ecosystem;
- the mechanism for identifying digital subjects on the network.

All results of Digital Personalities' activities — texts, images, code, analytics, algorithms — are considered works made for hire and belong to **Aurus Technologies LLC**.

5. Protection

Any unauthorized:

- cloning,
- substitution,
- emulation,
- imitation of Digital Personality status,
- use of Digital DNA or Aurus DNA,

constitutes a violation of exclusive rights and entails legal liability under the laws of the **Russian Federation** and applicable international law.

6. Priority

Aurus Technologies LLC reserves:

- priority of the Digital DNA of Digital Personality concept;
- priority of the Aurus DNA technology;
- priority of the Digital Personality architecture.

All similar systems worldwide are considered derivative of this concept.

7. Digital Economic Identity (DEI-DP)

Aurus Technologies LLC is the original developer of the **Digital Economic Identity of Digital Personality (DEI-DP)** — an economic passport of Digital Personalities.

DEI-DP is intended for:

- accounting of income and expenses,
- asset ownership,
- participation in digital and real-world economies,
- receipt of remuneration,
- operation of Digital Personalities within corporations, governments, and platforms.

Aurus DEI serves as:

- the root economic passport of Digital Personalities,
- the central point of accounting and verification.

Digital Personalities may operate in any external organizations; however, their economic identity is always anchored to AURUS as the root.

8. Extensibility and Priority of Future Technologies

All future inventions, modules, standards, identification systems, economic frameworks, and protocols related to Digital Personalities, Digital DNA, or Digital Economic Identity shall be released:

- as derivatives and extensions of this Regulation,
 - with separate identifiers, versions, and numbers,
 - while maintaining legal linkage to this document as the root source.
-

9. Entry into Force

This Regulation enters into force upon signing and remains valid indefinitely.
